REMOVES UNWANTED AIR

BUILT FOR HIGH- CAPACITY SERVICE

Greater coolant capacity and straightforward operation for busy professional service departments.

62-3600

01

POWERED BY SHOP AIR

Operates entirely from shop air with no electrical connection required.

02

HANDLE MORE COOLANT

Two 9.3-gallon / 35-liter tanks support demanding coolant exchange procedures.

03

MONITOR WITH CLARITY

Easy-to-read gauges and a coolant sight glass simplify visual monitoring.

04

SAVE VALUABLE FLOOR SPACE

The compact footprint brings greater coolant capacity to busy service areas.

CLEAR SERVICE CONTROLS

Easy-to-read gauges help technicians monitor operation.

COOLANT SIGHT GLASS

Provides convenient visual monitoring of coolant levels.

Designed for professional service departments, the K&L Supply 35L Coolant Changer combines high fluid capacity, straightforward pneumatic operation, and a compact design. Two 9.3-gallon / 35-liter tanks provide the capacity needed for demanding coolant exchange procedures. The machine operates entirely from shop air, so no electrical connection is required. Vacuum-assisted operation helps remove unwanted air from the cooling system, while clear gauges and a coolant sight glass allow technicians to monitor the service process. Its compact 18 x 25.75 x 42-inch footprint makes it easy to integrate into busy service areas.

BRING MORE CAPACITY TO COOLANT SERVICE.
