

FOR HARD-TO-REACH CENTER
LIFTING POINTS

DOMINATOR ULTRA LOW EXTENDED FLOOR JACK

**LOW PROFILE. EXTENDED
REACH. PROFESSIONAL
PERFORMANCE.**

The K&L Supply Dominator Ultra Low Extended Floor Jack is designed for vehicles with difficult-to-reach front center lifting points located behind the engine or in line with the front axle. Its extra-long chassis and ultra-low lifting pad provide the access technicians need when a standard floor jack cannot reach.

1.5 TON

WEIGHT CAPACITY

2.75 IN.

MINIMUM PAD HEIGHT

47 IN.

EXTENDED JACK LENGTH

**BUILT TO REACH DIFFICULT
LIFTING POINTS**

Extended reach and low-profile access for demanding professional automotive service.

35-9775

01

REACH CENTER LIFTING POINTS

The extra-long design reaches lifting points located behind the engine or in line with the front axle.

02

ACCESS LOW-CLEARANCE VEHICLES

The 2.75-inch minimum pad height fits beneath vehicles with limited ground clearance.

03

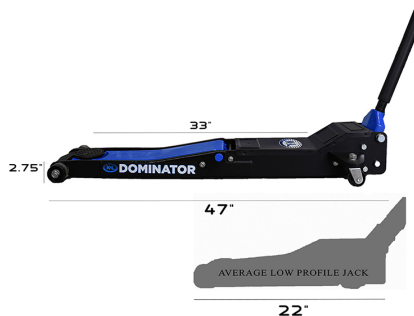

LIFT WITH CONFIDENCE

A 1.5-ton capacity provides dependable lifting support for applicable vehicles.

04

EXPAND SHOP CAPABILITY

Helps technicians service vehicles that may be difficult to access with a standard floor jack.

ULTRA-LOW LIFTING PAD

A 2.75-inch minimum height provides access beneath low-clearance vehicles.

EXTRA-LONG CHASSIS

The extended 47-inch design reaches centrally located lifting points behind the engine or in line with the front axle.

Built for challenging automotive lifting applications, the K&L Supply Dominator combines a 1.5-ton capacity with an extra-long 47-inch chassis. Its lifting range extends from an ultra-low 2.75 inches to a maximum height of 16.5 inches. The Dominator is designed for vehicles with centrally located lifting points that are difficult to reach with a conventional floor jack. Its extended reach and low-profile access make it a practical solution for professional automotive service facilities.

REACH THE LIFTING POINTS OTHER JACKS CANNOT.
