

FOR RIDERS, BUILDERS & SERVICE
PROFESSIONALS

GARAGE LIFT

Get the bike up.
Get the job done.

Drill-powered lifting raises motorcycles to a comfortable working height without an air or hydraulic system. Compact, portable, and ready for the way motorcycle people actually work.

1,200 LB

MAXIMUM CAPACITY

30 IN.

MAXIMUM RAISED HEIGHT

DRILL

CORDED OR CORDLESS POWER

**BUILT FOR REAL
GARAGES**

For motorcycles and other compatible vehicles with flat-bottom frames.

35-6200

01

No air. No hydraulics.

Use a high-torque corded or cordless drill.

02

Mechanical confidence

Acme-thread shaft helps resist unintended lowering.

03

Secure working setup

Adjustable safety locks and tie-down openings.

04

Move it. Store it.

Portable design for shops, showrooms, and home garages.

COMPACT FOOTPRINT.
SERIOUS WORKING HEIGHT.

ACME-THREAD LIFTING SHAFT.
PREVENT UNINTENDED LOWERING.

With a 1,200 lb maximum capacity and an adjustable deck, the Garage Lift supports motorcycles and other vehicles with flat-bottom frames. Its portable design makes it ideal for professional shops, showrooms, and home garages where space and flexibility are important.

A durable Acme-thread lifting shaft helps prevent the lift from lowering until the operator intentionally lowers it. Adjustable safety locks and integrated tie-down openings provide additional security while the motorcycle is raised.

Bring the work to a better height.
