

FOR AUTOMOTIVE & POWERSPORTS
DIAGNOSTICS

K60 DUAL LENS BORESCOPE

SEE MORE. DIAGNOSE WITH
CONFIDENCE.

The K60 Dual Lens Borescope provides clear visual access to tight, hard-to-reach areas during inspection and diagnosis. A compact camera probe, dual viewing angles, HD display, and adjustable LED lighting help technicians inspect internal components without unnecessary disassembly.

5 IN.

IPS HD DISPLAY

DUAL LENS

STRAIGHT & SIDE VIEW

32 GB

MICRO SD STORAGE

**BUILT FOR DETAILED
INSPECTION**

Capture clear images and video inside engines, cylinders, intake systems, and other confined areas.

35-8156

01

TWO VIEWING ANGLES

Switch between straight and side views for better visibility.

02

LIGHT THE WAY

Six adjustable LEDs illuminate dark inspection areas.

03

CAPTURE & RECORD

Save photos and video directly to the Micro SD card.

04

USB-C RECHARGEABLE

3500mAh battery delivers approximately 5–6 hours of use.

5-INCH IPS HD DISPLAY

Clear viewing with photo and video capture capabilities.

5.5 MM PROBE SIZE

Use a tight product shot emphasizing how small the camera head is.

With a 5-inch IPS HD display and dual straight-view and side-view cameras, the K60 Borescope gives technicians a clear look inside engines, cylinders, intake systems, and other confined components. Its compact probe and adjustable LED illumination help reveal areas that are difficult to inspect directly. The K60 captures still images at up to 1920 × 1080 and records 1280 × 720 video to an included 32GB Micro SD card. USB-C charging and a 3500mAh lithium battery provide convenient shop use with approximately 5–6 hours of operating time.

See the Problem Before You Take It Apart.
