35-69002

01

ADJUST TO THE COMPONENT

Adjustable supports accommodate a wide variety of lower units and single outdrives.

02

PROTECT CONTACT SURFACES

Rubber protectors help prevent scratches and marring on supported components.

03

MOVE AROUND THE SHOP

Front swivel casters provide 360-degree rotation for easier maneuvering.

04

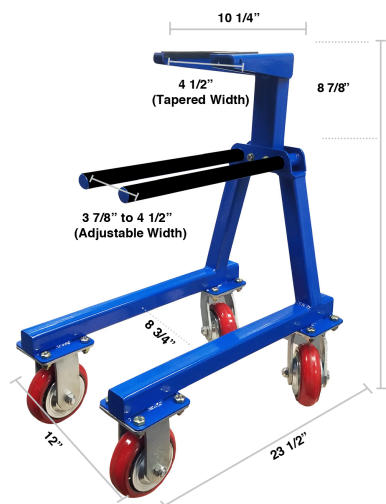

LOCK INTO POSITION

Locking casters provide stable and controlled positioning during service.

ADJUSTABLE SUPPORT

Configure the support width for different component shapes and sizes.

Designed to function as both a transport dolly and a convenient work stand, the K&L Supply Lower Unit Work Stand / Dolly helps technicians move marine components around the shop and position them for service. Its patented adjustable design supports a range of lower units, single outdrives, and small trolling motors. Rubber contact protectors help prevent marring, while the locking casters provide smooth mobility and stable positioning. The compact 23.5 x 12-inch base and 25-inch overall height make it a practical addition to professional marine service facilities.

MOVE MARINE COMPONENTS WITH CONFIDENCE.
