

FOR THE K1700 POWERTRAIN LIFT

POWERTRAIN ADAPTER SET

ADAPTABLE SUPPORT FOR COMPLEX COMPONENTS.

Expand the versatility of the K&L Supply K1700 Powertrain Lift. The Powertrain Adapter Set attaches directly to the lift table and provides additional support for engines, transmissions, EV batteries, and other components with different shapes, sizes, and contact points.

DIRECT FIT

ATTACHES TO THE K1700
TABLE

ADJUSTABLE SUPPORT & GREATER CONTROL

ACCOMMODATES DIFFERENT
COMPONENT SHAPES & IMPROVED
POSITIONING

VERSATILE APPLICATIONS

ENGINES, TRANSMISSIONS & EV
BATTERIES

ADAPTABLE COMPONENT SUPPORT

Position support where it is
needed.

62-77521

01

SUPPORT IRREGULAR COMPONENTS

Provides additional contact and support for components that may not sit flat on the standard lift table.

02

ADJUST TO THE APPLICATION

Position the adapters to accommodate components with different shapes, sizes, and support points.

03

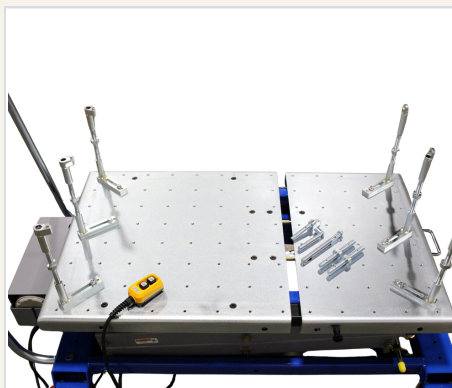

EXPAND K1700 CAPABILITY

Adapt the K1700 for a broader range of conventional, hybrid, and electric-vehicle service applications.

04

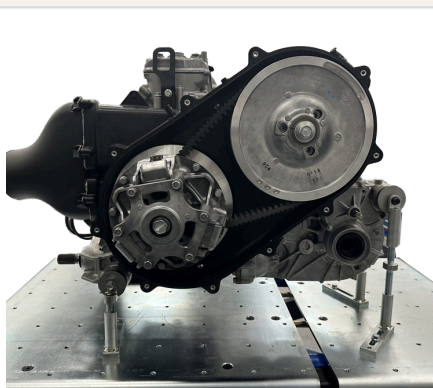

IMPROVE POSITIONING CONTROL

Additional support helps technicians position and stabilize heavy components during removal and installation.

ADJUSTABLE SUPPORT CONFIGURATION

Position the adapters across the K1700 table to match different component shapes and support points.

CONTROLLED POWERTRAIN SUPPORT

Multiple contact points help support and position irregularly shaped powertrain assemblies.

DESIGNED FOR THE K1700

The adapter accessories attach directly to the K1700 lift table, creating additional support points for components that require a more adaptable setup. When handling components with uneven shapes or weight distribution, technicians can position the adapters where support is needed. This expands the K1700 from a broad lifting platform into a more adaptable powertrain-handling system for professional automotive service facilities.

IDEAL FOR

- Engines and complete powertrain assemblies
- Transmissions and drivetrain components
- EV and hybrid battery packs
- Subframes, differentials, and fuel tanks
- Other large or irregularly shaped components

SUPPORT THE COMPONENT. CONTROL THE JOB.
