K&L FUEL LINE

K&L has the right fuel line for your application:

- **Reinforced Rubber:** Double laminated with internal braiding for maximum burst strength. Recommended for fuel-injected or gravity systems. 100+ psi burst strength.
- **Reinforced Nitrile:** High quality. Stronger and more durable than vinyl. Ozone, cold & heat resistant -40° to +270°F. Not for use with fuel-injected systems. 4-7 psi rating.
- **Tygon:** Highly resistant to tearing or abrasion and to heat or cold. Safe for use with all petroleum based products. Not for use with fuel-injected systems.
- **Vinyl:** Safe for gasoline or alcohol-type fuels. Not for use with fuel-injected systems.

TRANSPARENT FUEL LINE

Manufactured of the highest quality polyurethane plastic. Features include; good flexibility, excellent kink resistance and outstanding abrasion resistance. Sold in 25 foot lengths. Available in 1/8" (3mm) and 1/4" (6mm) in the following colors;
